Office A	ction S	Summary		•		

Application/Control Number: 08/793502

Art Unit: 3662

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 30, 31, and 55, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As to claim 30, "can be" is indefinite.

Claims 31 and 55 depend from an indefinite antecedent claim.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 4. Claims 1, 3-7, 9, 10, 13-17, 19-32, 34-38, 40, 41, 44-46, 51, and 53-56, are rejected under 35 U.S.C. 102(b) as being anticipated by European Patent Application 0345818 A2 (cited on PTO-1449).

Application/Control Number: 08/793502 Page 3

Art Unit: 3662

The European Patent Application teaches the claimed navigation information system method and structure including: mobile communications system having a fixed part(Figure 1) and a plurality of mobile units (12 and 16) for communicating with the fixed parts, transmitting a request for guidance (column 3, lines 20-22), determining the location (column 3, lines 8-12) of a mobile unit requesting guidance, generating guidance information according to the present location and specified destination of the mobile unit (column 3, lines 8-22), means (column 3, lines 8-17) for transmitting the guidance information associated with an overlay area (running area code 64), transmitting information to a plurality of mobile stations (column 3, lines 28-30), memory means (42 and 212), location comparing (column 14, lines 22-34), and vehicle identification (104).

5. Claims 8, 11, 12, 39, 42, 43, 49, 50, and 52, are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3662

6. Any inquiry concerning this communication should be directed to Theodore Blum at telephone number (703) 305-1833.
